Art Unit: 2165

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-23: Independent claims 1 and 16 refer to both “links” and “associated links”. It is not clear what distinction exists between the recited types of links, if any. As best as can be understood from the disclosure, there is only one type of link and this type of link is always associated with user weights and transaction weights. Accordingly, the claims should only refer to “links” or “associated links” but not both, since this would appear to suggest more than one type of link.

Claim 24 is allowed.

Claims 1-23 would be allowed if claims 1 and 16 are corrected per the discussion above.

This action is non-final.
